

3. Keep your plan up to date

Your COVIDSafe Plan must be reviewed and updated routinely and when restrictions or public health advice changes. Organisations with multiple worksites must complete a COVIDSafe Plan for each worksite.

You do not have to lodge your COVIDSafe Plan with the Victorian Government, however, you may need to provide your COVIDSafe Plan to an Authorised Officer or WorkSafe Inspector upon request, or in the event of a confirmed positive case at your workplace. There will be virtual and physical inspections as well as desktop audits to ensure the implementation of and compliance with your COVIDSafe plan.

4. Share your plan

Your workforce needs to be familiar with this plan. Where possible it is recommended that you discuss the plan with your workers before you finalise it. Once you have completed the plan, share it with your workers and occupational health and safety representatives.

For further guidance on how to prepare your COVIDSafe Plan or any other questions, please visit vic.gov.au or call the Business Victoria Hotline on 13 22 15.

Your COVIDSafe Plan

Business name: Pura Cleaning

Plan completed by: Sean Pary

Date reviewed: 26/10/2020

1. Ensure physical distancing

Requirements

Action

You must ensure workers and visitors are 1.5 metres apart as much as possible. This can be done by:

- Displaying signs to show patron limits at the entrance of enclosed areas where limits apply
- Informing workers to work from home wherever possible

You may also consider:

- Minimising the build-up of people waiting to enter and exit the workplace
- Using floor markings to provide minimum physical distancing guides
- Reviewing delivery protocols to limit contact between delivery drivers and workers

We have and will continue to advise workers and our clients to maintain the 1.5 meter apart rule when working on sites.

You must apply density quotient to configure shared work areas and publicly accessible spaces to ensure that:

- There is no more than one worker per four square metres of enclosed workspace
- There is no more than one member of the public per four square meters of publicly available space indoors

We have and will continue to advise workers to make sure there is only one worker per four square metres of enclosed workspace.

You should provide training to workers on physical distancing expectations while working and socialising. This should include:

- Informing workers to follow current public health directions when carpooling. This can be found at vic.gov.au

Training has been provided to all workers on the expectations on physical distancing while working.

If your industry is restricted or heavily restricted, you must also:

Reduce workers levels in accordance with industry directions.

Limit number of patrons in accordance with industry directions.

Have no carpooling.

Heavily Restricted Industries Only

Have workers only attend work if permitted. Workers in permitted work premises must work from home, if they can.

2. Wear a face covering

Requirements

Action

You must ensure all workers and visitors entering the worksite wear a face covering as per public health advice. This includes:

- Providing adequate face coverings and Personal Protective Equipment (PPE) to workers that do not have their own

All cleaners have adequate face coverings, gloves and PPE which must be worn while working on site. Additional supplies are also available on each site.

You should install screens or barriers in the workspace for additional protection where relevant.

N/A

You should provide training, instruction and guidance on how to correctly fit, use and dispose of PPE.

You should inform workers that cloth masks should be washed each day after use. However, if during the day the mask is visibly dirty or wet, the mask needs to be washed immediately.

We have provided the DHHS COVID training to all staff as well as guidance on how to correctly fit, use, and dispose of PPE.

There are no additional requirements for restricted or heavily restricted industries.

3. Practise good hygiene

Requirements

Action

You must frequently and regularly clean and disinfect shared spaces, including high-touch communal items such as door knobs and telephones.

You should:

- Clean surfaces with appropriate cleaning products, including detergent and disinfectant
- Replace high-touch communal items with hygienic alternatives, for example single-use or contactless options, where possible to do so
- Clean between shifts

N/A

You should display a cleaning log in shared spaces.

N/A

You should make soap and hand sanitiser available for all workers and customers throughout the worksite and encourage regular handwashing.

We do not have a fixed worksite but all cleaners are provided with hand sanitiser on site and encouraged to wash hands before and after jobs.

If your industry is restricted or heavily restricted, you should also:

Conduct an audit of cleaning schedules.

4. Keep records and act quickly if workers become unwell

Requirements

You must support workers to get tested and stay home even if they only have mild symptoms.

You must develop a business contingency plan to manage any outbreaks. This includes:

- Having a plan to respond to a worker being notified they are a positive case while at work, noting workers who show symptoms or have been in close contact should NOT attend the workplace until they receive their test results
- Having a plan to identify and notify close contacts in the event of a positive case attending the workplace during their infectious period
- Having a plan in place to clean the worksite (or part) in the event of a positive case
- Having a plan to contact DHHS and notify the actions taken, provide a copy of the risk assessment conducted and contact details of any close contacts
- Having a plan to immediately notify WorkSafe Victoria on 13 23 60 if you have identified a person with coronavirus (COVID-19) at your workplace
- Having a plan in the event that you have been instructed to close by DHHS
- Having a plan to re-open your workplace once agreed by DHHS and notify workers they can return to work

You must keep records of all people who enter the workplace for contact tracing.

You should implement a screening system that involves temperature checking upon entry into a workplace.

Action

We ask cleaners regularly if they are experiencing COVID like symptoms and encourage them to follow guidelines.

Our plan is as follows:

1. Request cleaner to leave worksite immediately and get tested.
2. Notify close contacts within the last 14 days via our booking system
3. Notify DHHS and provide close contact details.
4. Notify WorkSafe Victoria
5. In the event that our services cannot continue we will notify clients via email and text.
6. When reopening, all cleaners will be provided with training as per normal.

Booking system tracks contacts

Cleaners are temperature checked before commencing work.

If your industry is restricted or heavily restricted, you must also:

Restricted Industries

Ask workers to declare verbally before each shift that they are free of symptoms, have not been in contact with a confirmed case and have not been directed to isolate.

Heavily Restricted Industries

Ask staff to declare in writing or electronically before each shift that they are free of symptoms, have not been in contact with a confirmed case and have not been directed to isolate.

5. Avoid interactions in enclosed spaces

Requirements

You should reduce the amount of time workers are spending in enclosed spaces. This could include:

- Enabling working in outdoor environments
- Moving as much activity outside as possible, including serving customers, meetings, tearooms, lunchbreaks and locker rooms
- Enhancing airflow by opening windows and doors
- Optimising fresh air flow in air conditioning systems

Action

N/A

There are no additional requirements for restricted or heavily restricted industries.

6. Create workforce bubbles

Requirements

You should keep groups of workers rostered on the same shifts at a single worksite and ensure there is no overlap of workers during shift changes.

You should maintain records of all workers who have disclosed that they reside with another worker and ensure that there is no cross-over between shifts.

Action

For recurring cleans, individual cleaners will maintain the same bookings.

Question is asked to all new cleaners.

If your industry is restricted or heavily restricted, you must also:

Limit or cease the number of workers working across multiple work sites.

Maintain records of all workers who have disclosed that they are working for different employers across more than one work premises.
